The 2016 Summit will be the 11th annual ICS Security Summit.

The Summit will center on the theme “Defense is Doable.” The Summit will explore the current ICS threat matrix and effective safeguards against threats.

Talks must be case studies based on real-world experience, lessons learned, and best practices, and should give attendees actionable advice they can implement immediately upon returning to their organizations.

The event audience spans multiple industries, and program committee members are looking for diversity in ICS applications (e.g. chemical, manufacturing, energy, building management, water , etc.)
