SANS Feature *Stephen's Pick for July*

SANS **SAN FRANCISCO** 2014

www.sans.org/event/san-francisco-2014

Please join me for SANS San Francisco 2014 this July 14-19, as SANS brings seven security courses to the Bay Area. Enhance your skills by taking advantage of SANS IT security, security management, and forensics training loaded with practical tools and cutting-edge information. The following courses will be available:

FOR585: Advanced Smartphone Forensics - Cindy Murphy

SEC401: Security Essentials Bootcamp Style - Stephen Sims

SEC504: Hacker Techniques, Exploits & Incident Handling - Mark Baggett

SEC566: Implementing and Auditing the Critical Security Controls – In-Depth -
Randy Marchany

SEC579: Virtualization and Private Cloud Security - Dave Shackleford

MGT414: SANS +S Training Program for the CISSP® Certification Exam - Paul A. Henry

MGT514: IT Security Strategic Planning, Policy and Leadership -
Frank Kim and Stephen Northcutt

This event also features a vendor showcase and bonus sessions, such as *Mobile Malware and Spyware: Working Through the Bugs* by Cindy Murphy, and *Malware Reloaded* by Mark Baggett.

As information security professionals, you understand the need for highly relevant and actionable training from real-world security practitioners to help keep your organizations secure and your career on an upward track. SANS San Francisco 2014 offers the right mix of cutting-edge classes to help you stay ahead of the curve. Make your travel plans now to attend SANS San Francisco 2014. I look forward to seeing you there.
