Stephen's Pick for March

SANS 2016

www.sans.org/sans-2016

It is my pleasure to announce that SANS 2016 is back in Orlando, Florida from March 12-21 with cutting-edge courses taught by top industry professionals who will provide you with the best available cybersecurity training. I invite you to take this amazing opportunity to meet with other cybersecurity professionals at one of the largest SANS events and learn actionable steps that will make an impact on security. Our event campus and lodging will once again be the magnificent Walt Disney World Dolphin Resort.

More than 35 information security courses will be taught by SANS' top instructors and many of those courses can prepare you for a prestigious GIAC certification. There will be numerous opportunities to learn new skills, techniques, and trends at the SANS@Night talks, vendor expo, lunch-and-learn sessions, and by networking with your peers. You will hear about the latest and most important issues facing your profession, from SANS practitioners who are leading the global conversation on cybersecurity. I hope you can join me at SANS 2016 for these many exciting opportunities.
