Your pathway to cybersecurity skills and careers

The Women's Immersion Academy provides qualified participants with hands-on skills training and industry certifications needed to quickly and effectively launch careers in cybersecurity.
The Academy is an intensive, accelerated program designed for completion in approximately six months.

SANS: The Leader in Cybersecurity Training

The SANS Institute is the largest and most trusted source for cybersecurity training. Its programs now reach more than 165,000 security professionals around the world.

"I choose to pursue a career in Cyber Security while studying for IT in college, and the Women's Immersion Academy provided a great foundation for my Infosec career. I was able to carry the experience and the knowledge I gained from the training to my current job. My current employer was thoroughly impressed with the certifications that I received. Also, the mentors and other women from the cohorts were helpful and welcoming. It was a great opportunity to network with them, and we still maintain communications even after the academy has ended."

– Kim Ngoc Le, Security Analyst 1 - Incident Response, GuardSight

Application Deadline June 8, 2019

Classes Begin July 2019
Pending candidate location and schedule availability

Graduation February 2020
Final date determined by curriculum selected and location

100% SCHOLARSHIP-BASED FOR SELECTED PARTICIPANTS

Three steps to a cybersecurity career

1

QUALIFY

Candidates complete a SANS qualifying exam which measures aptitude and foundational skills in cybersecurity. Candidates who perform well on the exam will be invited to submit a full application and participate in an admissions interview.

2

TRAIN & CERTIFY

Develop practical, hands-on skills by attending world-class SANS training courses. Two and three course programs available.

Earn GIAC certifications, recognized by employers around the world.

3

LAUNCH CAREER

SANS and our partners work diligently to connect Academy cohort members with a variety of leading employers that are hiring information security professionals.
