GUESS THE SECURITY GAPS

Identify 10 Security Gaps & Enter to Win Prizes on Insight

To enter, submit at least 9 out of 10 correct answers and complete the Security Awareness compliance course in ILN to be eligible for prizes. Contest runs 10/1 – 10/30 and participants must enter via the contest portal on Insight at http://in/guessthesecuritygaps

Prizes: $50 Spotlight for 10 winners at each participating locations (including remote workers as one group), selected by random drawing among eligible entries.

5 Cyber Security Gaps Clues

Clue #1: Something "**phishy**" is going on here. What should employees be careful of when reading email?

Clue #2: What do you think is this person's **Intuit password** by viewing the scene?

Clue #3: You should never use the same password used elsewhere, like on social media, that you use at Intuit. Is this person **violating this policy by using the same password on a social media mobile site**?

Clue #4: What will "**save**" or protect this person's data from being accessed by unauthorized users or onlookers looking at the screen?

Clue #5: Anything **turned-off/disabled** on this PC/Mac that should always be active?

5 Physical Security Gaps Clues

Clue #6: What should be **worn and visible at all times**, and not left alone?

Clue #7: What **type of equipment** should never be left unsecured?

Clue #8: You should never leave confidential material where others can access it. **Where can someone easily find confidential information about a secret project in this scene?**

Clue #9: Someone's garbage is another person's treasure. **What should have been done here with confidential documents when they need to be disposed of?**

Clue #10: Don't "thumb" your nose at securing portable data devices. **What could easily be stolen here?**

Optional Bonus Question:
What can the Corporate Security or Information Security team do better to protect our company and customers?

Thank you for playing your part in keeping Intuit and our customers safe!
