# Question

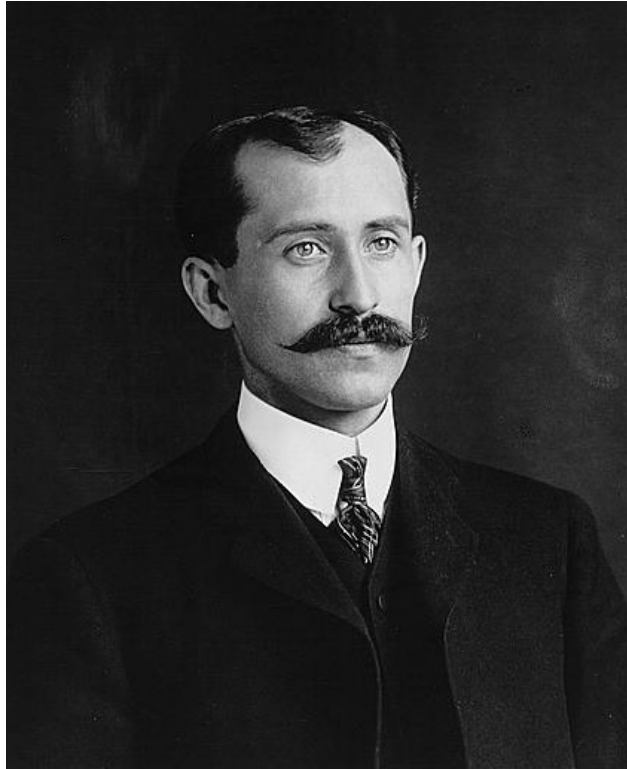

- ▶ **Summit Theme (paraphrased):** In the past 10 years, digital forensics and incident response have vastly improved, but information security is still full of FAIL.

What should the new essentials be in forensics and IR and how can they reduce the failures in info sec?

# Question Answered By Dave Hull

- ▶ 15 years in IT and information security
  - 12 years in higher ed. (lower sec)
  - Incident response and digital investigations
  - Software dev, co-discovered OS Fingerprinting via DHCP
  - Growing alphabet soup after my name
- ▶ Trusted Signal
  - Incident response and digital investigations
  - Litigation support
  - Community SANS Instructor
  - Editor and author of the SANS Forensics Blog
- ▶ Seeker of truth, knowledge and wisdom
