MANIFESTO

- We believe that security awareness
  contributes to a safer society and
  technology alone cannot
  protect what is of value.
- The manifesto provides guiding
  principles for the further
development of security awareness,
and contributes to the
professionalization of the field of

- The manifesto is intended for
  anyone who is interested in
  security awareness.
- The Security Awareness Nl
  platform consists of people with
different backgrounds who share
  a passion for security awareness.
- By combining expertise and
  collaboration we create synergy.

- We encourage risk awareness that
  leads to a security culture and
  adequate action.
- We focus on education and the
  development of people.
- The speed of development of
tools, makes further education
essential. We continuously try to
improve our skills, attitude,
knowledge and insights and share
freely with each other.
- We want to make people more
  resilient by continually paying
  attention to safety, providing
clear explanations of safe
chices, and developing
capabilities to keep them safe.
- We work on the cutting edge of
  security and human behaviour,
staying up to make the ideals of
  safe behaviour apparent and clear.

Success is a series of small wins
1. Create a team with different skills
2. Create a vision
3. Think up an appropriate name
4. Create your own roadmap
5. Create an online meeting platform and offline events
A goal without a plan is just a wish.

Roadmap: think big, start small

6. Liaison with media
7. Cooperate with other communities
8. Involve local heroes
9. Delegate! Enlarge the team
10. Grow towards a professional platform
A goal without a plan is just a wish.
