

SANS European SCADA &
Process Control Security 2012 Summit
Summit Dec 10-11

<https://www.sans.org/eu-scada-2012/>

The 5th Annual European SCADA and Process Control System Security Summit will be held in Barcelona, Spain at the Hilton Barcelona Hotel on December 10 & 11, 2012 with pre and post Summit technical courses on December 5-9 and December 12-13.

The European SCADA Summit brings together the program managers, control systems engineers, IT security professionals and critical infrastructure protection specialists from asset owning and operating organizations along with control systems and security vendors who have innovative solutions for improving security. Along with government and research leaders, they are coming together to learn and discuss the newest and most challenging cyber security risks to control systems and the most effective defenses.

If you provide solutions in this topic and you want to reach those looking to address these critical cyber security issues, this summit is for you!
