#SANSBRUSSELS

---

## 4 SANS COURSES

---

### SEC501

Advanced Security Essentials  
- Enterprise Defender

### SEC511

Continuous Monitoring  
and Security Operations

### SEC560

Network Penetration Testing  
and Ethical Hacking

### FOR508

Advanced Digital Forensics  
and Incident Response

Register online and see full course descriptions at [www.sans.org/brussels-autumn-2016](http://www.sans.org/brussels-autumn-2016)

## ABOUT SANS

SANS is the world's largest provider of cyber security training. We now train over 40,000 cyber security professionals around the world each year. We operate across 30 geographic regions. In those regions SANS trains cyber security operatives and managers who work in government departments, for military bodies and for large commercial organisations.

## ADVANCED SECURITY ESSENTIALS - ENTERPRISE DEFENDER

TED DEMOPOULOS

A key theme of this course is that prevention is ideal, but detection is a must. Security professionals must know how to constantly advance security efforts in order to prevent as many attacks as possible. This prevention needs to occur both externally and internally via portable, network and server environments. SEC501 builds on a solid foundation of core policies and practices to enable security teams to defend their enterprise.

WWW.SANS.ORG/SEC511

## CONTINUOUS MONITORING AND SECURITY OPERATIONS

ISMAEL VALENZUELA

The Defensible Security Architecture and Network Security Monitoring/Continuous Diagnostics and Mitigation/Continuous Security Monitoring taught in this course will best position your organisation or Security Operations Centre to analyse threats and detect anomalies that could indicate cybercriminal behaviour.

WWW.SANS.ORG/SEC560

## NETWORK PENETRATION TESTING AND ETHICAL HACKING

ERIK VAN BUGGENHOUT

In-depth penetration testing skills learned in this course will prepare you to conduct professional-grade pen tests, end-to-end, including scoping, recon, scanning, exploitation, post-exploitation and more.

WWW.SANS.ORG/FOR508

## ADVANCED DIGITAL FORENSICS AND INCIDENT RESPONSE

JESS GARCIA

This in-depth incident response course provides responders with advanced skills to hunt down, counter, and recover from a wide range of threats within enterprise networks, including APT adversaries, organised crime syndicates, and hactivism. Constantly updated, the course provides hands-on incident response tactics and techniques that elite responders are successfully using in real-world breach cases today.
