ABOUT SANS

SANS is the world's largest provider of cyber security training. We now train over 40,000 cyber security professionals around the world each year. We operate across 30 geographic regions. In those regions SANS trains cyber security operatives and managers who work in government departments, for military bodies and for large commercial organisations.

SECURITY ESSENTIALS BOOTCAMP STYLE

KEITH PALMGREN

SEC401 teaches students the essential skills and techniques needed to protect and secure an organisation's critical information assets and business systems. Students learn the language and underlying theory of computer and information security and gain the knowledge needed to secure systems and organisations.

WWW.SANS.ORG/SEC503

INTRUSION DETECTION IN-DEPTH

JESS GARCIA

This course acquaints students with the core knowledge, tools and techniques necessary to defend networks. Spanning a wide variety of topics, from foundational materials such as TCP/IP to detecting an intrusion, this training provides students with in-depth knowledge on intrusion detection.

WWW.SANS.ORG/SEC504

HACKER TOOLS, TECHNIQUES, EXPLOITS & INCIDENT HANDLING

STEVE ARMSTRONG

SEC504 provides hands-on experience in finding vulnerabilities and discovering intrusions, whilst also equipping students with a comprehensive incident-handling plan. The course addresses the latest cutting-edge, insidious attack vectors as well as less recent attacks that are still prevalent.

WWW.SANS.ORG/SEC579

VIRTUALIZATION & PRIVATE CLOUD SECURITY

DAVE SHACKLEFORD

Learn best practices for configuring and designing virtual security controls and infrastructure, and about how your vulnerability assessment and forensic processes can be updated to more accurately detect and manage risks in virtual and cloud environments.

WWW.SANS.ORG/SEC642

ADVANCED WEB APP PENETRATION TESTING & ETHICAL HACKING

ADRIEN DE BEAUPRE

In this course you will experience intense web app and web services exploitation, diving deep into the mechanics of web app infrastructures and protocols to find and fix subtle yet hugely damaging flaws before the hackers do.

WWW.SANS.ORG/MGT512

SANS SECURITY LEADERSHIP ESSENTIALS FOR MANAGERS WITH KNOWLEDGE COMPRESSION™

G. MARK HARDY

This completely updated course is designed to empower advancing managers who want to get up to speed quickly on information security issues and terminology. You won't just learn about security, you will learn how to manage security.
