

Women's Connect & SANS Summits

Panel & Workshop:

How to Write Presentation Proposals for Cybersecurity Conferences

Join our panelists as they share their experience and wisdom on writing proposals that get your talk on the agenda at cybersecurity conferences like SANS Summits and RSA Conference. We'll cover:

- Choosing a topic for your submission
- DOs and DONTs of submissions
- What reviewers really look for
- Dealing with rejection
- Creating your personal brand and building a network

After the 30-minute panel, you'll get to try your hand at drafting and reviewing talk proposals. If you've got a talk you've been considering submitting, bring it and get feedback from top SANS instructors, or just get a look at real submissions to see what makes the cut.

SANS
SUMMITS

Tuesday, September 25

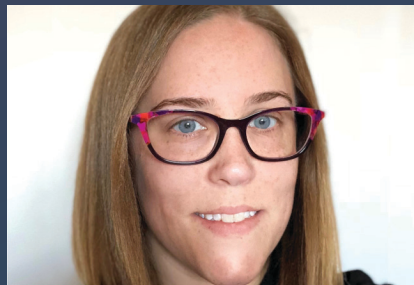

7:15-8:15 pm

Room: Roman III

Snacks and soft drinks will be served; 150 participants will receive a copy of *WOMEN IN TECH*
