“SEC560 was a good dive into how real world attacks & hackers work. I really enjoyed it.”

- Jeremy Dour, UPS

“I learned new tools and models that I want to go use immediately.”

- Jamie Bosley, Caterpillar

“Real life examples of case scenarios with clients were a great addition to the course.”

- Arnaud Ruiz, Daimler AG

SANS offers training at our live events, including the Automotive Cybersecurity Summit, and training online. Visit sans.org/training to view classes by modality. Access course demos with the OnDemand Platform.

GIAC Certifications provide the highest assurance of cybersecurity knowledge and skill available to clients across the world. GIAC Certifications meet ANSI / ISO 17024 standards and align with the NICE framework.

SANS Security Awareness Training covers every end-user, no matter their learning level. Create a culture of security awareness with programs such as End-User Training, Phishing Training, and Developer Training.

GIAC Certifications meet ANSI / ISO 17024 standards and align with the NICE framework.
