

CYBER START

Have you got the aptitude and interest
to be a cyber security professional?

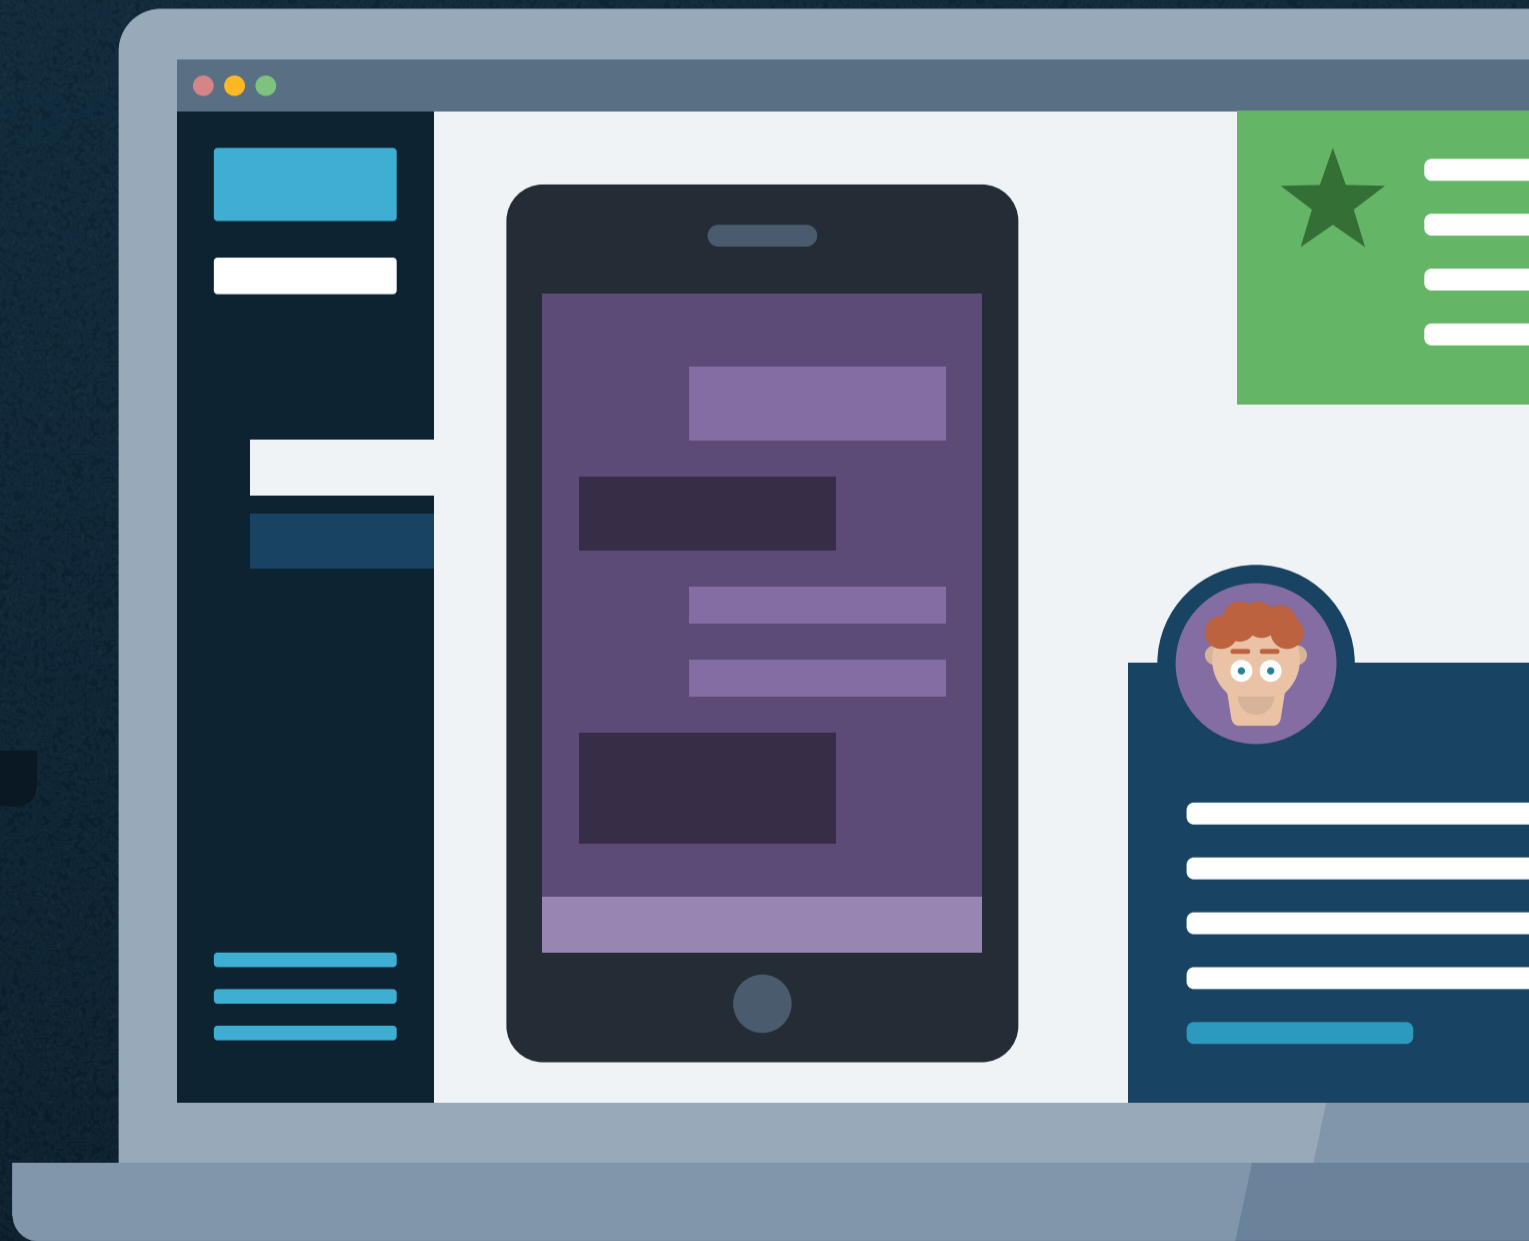

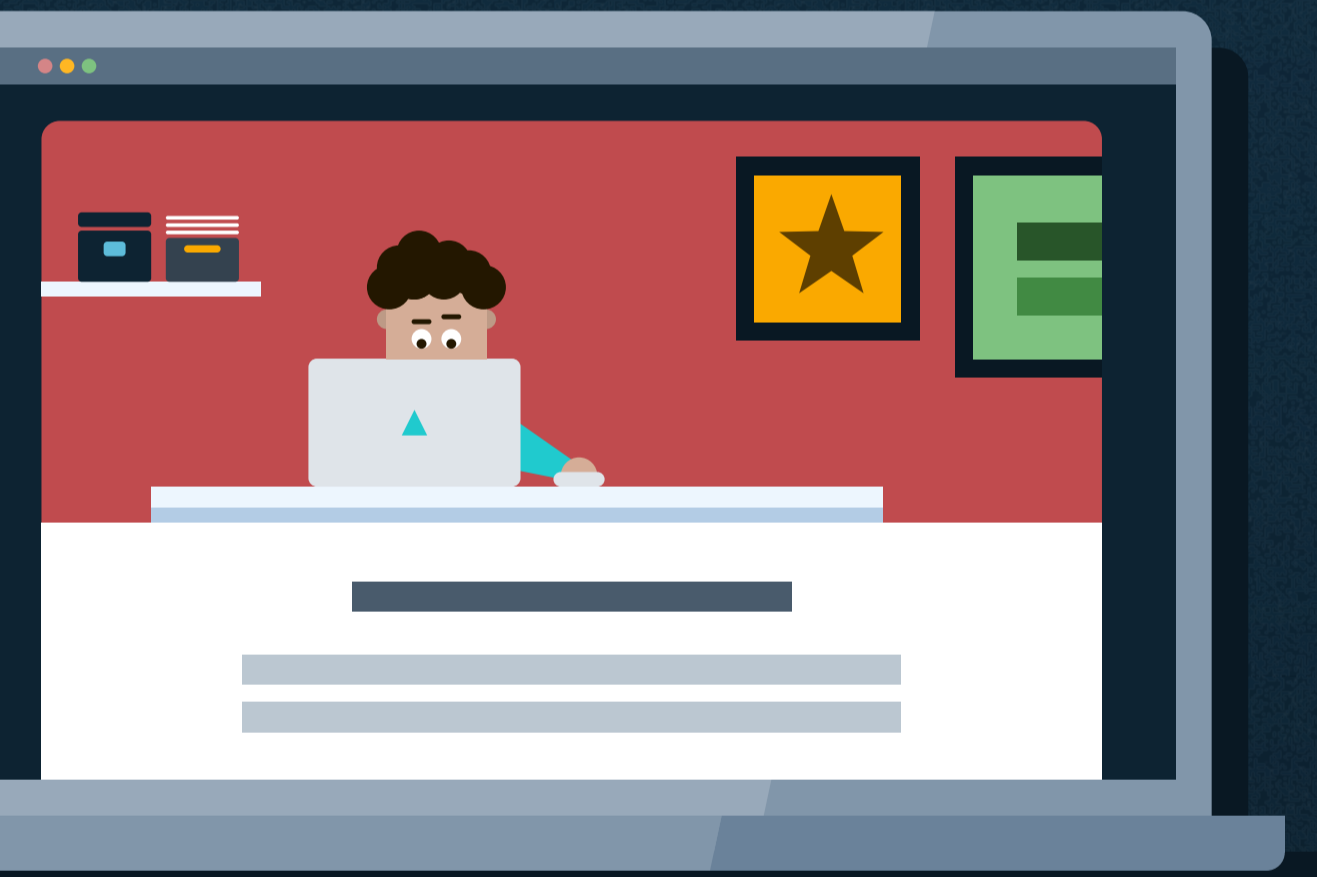

Find out and have some fun tackling over 100 cyber security challenges!

assess

You'll start with CyberStart Assess - a small set of challenges for you to attempt and our chance to see if your brain is wired like a cyber security professional.

game

Students who solve 5 or more challenges on Assess will then be invited to play CyberStart Game - over 100 fun and formidable cyber security challenges tackling real world scenario's!

The top 100 students will be eligible
to receive scholarships and further
high level security training!

To join the program you must be over 16, a high school or college student, and from Virginia, Michigan, Iowa, Hawaii, Nevada, Delaware or Rhode Island. No cyber security experience needed!
