Safety Walkthrough Checklist

Leadership and the Safety Walkthrough

By Stephen Northcutt

When you return to the workplace, schedule a half an hour or more to do a walkthrough in your facility to look for safety hazards. This is a great opportunity to lead by example. Grab another manager and have them come with you. Walk through your facility and look for anything that's hazardous. This is some of the easiest and cheapest risk reduction you can do.

Facility Safety Inspection Checklist

The form was created for students in the [SANS Security Leadership Essentials class](#) and is based on a US Department of Commerce checklist.
